

*International Workshop on Production Partnership Management
Ordnance Survey, Southampton. United Kingdom
7th to 9th November 2007
EuroSDR, FIG, EuroGeographics, AGI*

Final Session: Moving Forward - Chair AJ

Recommendation: Proceed via an ISO Technical Report
Agreed

This will require:

- a New Work Item Proposal
- Project Leader
- Core Team to prepare the document
- Review Team

Names for Core team:

Antti Jakobsson
Ray Patrucco
Steve Cowell
Peter Hansen
Prasad Ravinder

Review team (by email) will be the workshop group – (all included – can withdraw if individuals feel it is inappropriate).

We require support from at least 5 countries

The team will create the next version of the document.

Comments on the current version are required by 23rd November.

Comments from the flipcharts to be taken into account.

- Flipcharts to be typed up and loaded onto EuroSDR web pages by 23rd November.

Next version of the document to be issued by end of January 2008 using the ISO template.

Is there a need for a second workshop?

- depends on comments to second version (yes if some need to be reconciled).

Need for case studies:

- 1spatial
- TeletAtlas
- OSGB

These support the case and should be ready by Sept 2008

Need to send a document to ISO by end of March (min 4 weeks) to enable a process to start in Spring 2008.

Next ISO TC211 meetings

- May 2008 – Copenhagen
- Dec 2008 – Japan

Case studies should be included in the document before sending it to the ISO process.
